**FOR IMMEDIATE RELEASE**

**ABBYY Recognizes MTS Software Solutions with Partner of the Year Award**

ABBYY VAR Partner, MTS Software Solutions, is awarded for being the top revenue producer in North America

MOORESTOWN, NJ – November 2, 2017 – ABBYY recognized its top-performing VAR certified partner, MTS Software Solutions (MTS), with the Partner of the Year Award during the fifth annual ABBYY Technology Summit October 25-27, 2017 at the Marriott Marquis San Diego Marina. Each year ABBYY acknowledges a top revenue producing VAR Partner for distinctive performance and delivery of ABBYY’s innovative capture and processing technologies.

“ABBYY takes great pride in our Partner Program and MTS Software’s success is a solid example of the growing need for intelligent capture solutions to deliver business-value within enterprises,” said Craig Laue, Senior Director of Sales and Data Capture Business Unit at ABBYY. “MTS is very well known in the ECM industry for their ability to successfully apply intelligent data capture to complex document capture and data extraction challenges, namely in financial services. We congratulate MTS Software and appreciate their hard work in achieving this very selective award.”

“It is with tremendous pride that MTS Software Solutions accepts this honor from our valued partner ABBYY,” said Gary Schwartz, CEO for MTS Software Solutions. “We are deeply honored to be named ABBYY’s North American Partner of the Year for 2017. I would like to thank Steve Knight, Craig Laue, and Paula Sanders for their incredible level of support. I would also like to thank the MTS team, namely Collins Sarmiento and Prasad Subramaniam, for outstanding delivery on every project. MTS looks forward to even greater success with ABBYY in 2018.”

ABBYY is a leading provider of technologies and solutions that help businesses to action information. The company sets the standard in content capture and innovative language-based technologies that integrate across the information lifecycle. ABBYY FlexiCapture is powerful capture software that works with precision accuracy to convert paper and image documents into business-ready data.
